

CHRONIC MAINTENANCE MEDICATION LIST

Your pharmacy benefit plan includes special coverage for preventive medications.

The drugs on your plan's preventive medications list. This is only applicable if obtained through pharmacy benefit. To check the cost of any medication, call the number on your member ID card, visit your plan's website on your member ID card, or log on to the Optum Rx app.

To get the most from your benefits, ask your doctor if a generic medication (shown as lower case in the lists) is right for you. Generics normally cost less than brand medications, and the Food and Drug Administration (FDA) requires them to be just as safe and effective. Using generics may be required based on your plan benefit.

For questions on injectable preventive medications administered by your doctor or healthcare provider, please call the number on your ID card. This list should be used as a reference and may not include all medications.
