

## IBM MEDICAL COST CALCULATOR

In collaboration with IBM, the AultCare Medical Cost Estimator has been remodeled for members to access accurate, personalized cost estimates for a wide variety of in-network healthcare services.

### Benefits of the Cost Calculator

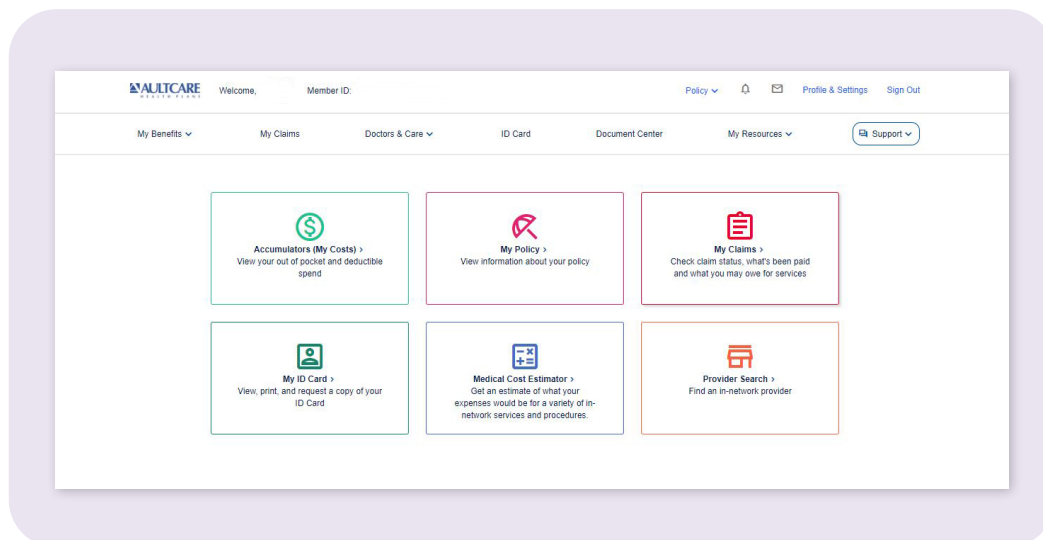

- » Search for a medical treatment, service, or condition.
- » Review your out-of-pocket estimates.
- » Compare quality, cost, and location for providers.

### Improvements to the Cost Calculator

- » Access to more procedures.
- » Easy-to-read graphs for out-of-pocket estimates.
- » Disease and Condition feature provides an estimated range of costs to treat a condition for an entire year.

### STEP 1

- » Visit [www.aultcare.com](http://www.aultcare.com) and log into your secured online account.
- » On the dashboard, select the blue Medical Cost Estimator button.
- » Agree to the Terms of Use for the Medical Cost Estimator.

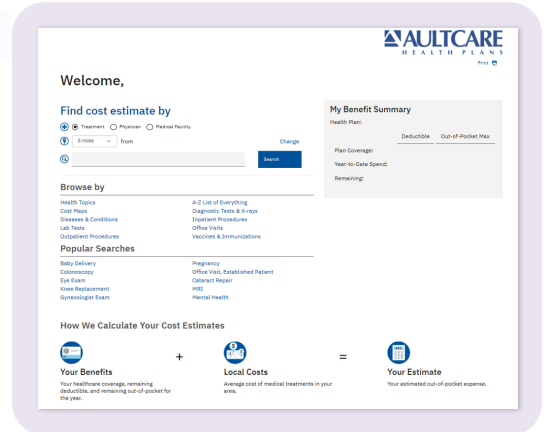

## STEP 2

- » On the drop-down menu, select the member who will be receiving the medical treatment or service.

## STEP 3

- » This screen denotes a benefit summary for the member (deductible and out-of-pocket).
- » Search for a cost estimate by selecting the appropriate button (treatment, physician, or medical facility). Type in the text box the corresponding name of the treatment, physician, or medical facility.
- » You may also click on a category in the “Browse by” section.

## STEP 4

- » The information displayed is an estimated out-of-pocket calculation, along with a brief description of the procedure/treatment.
- » A list of providers and facilities may also be shown for a cost comparison.
